LyRise

AI Profit & Productivity Report

Insight-Driven Analysis | Pending stakeholder validation

PREPARED FOR
Yousef, COO

DATE & CURRENCY
May 4, 2026 | USD

HOURS RETURNED / YEAR	OPERATIONAL DIVIDEND (PER YEAR)	PROFIT UPLIFT (PER YEAR)	TOTAL FINANCIAL GAIN (PER YEAR)
1,598	**$60K**	**$90K**	**$150K**
131 hrs/month · 0.8 FTE equiv.	Labor value recaptured	Redirected capacity gains	OD + Profit Uplift

> This represents approximately 5% of your estimated annual revenue returned through operational efficiency — without adding headcount.

RESULTS WE'VE DELIVERED FOR SIMILAR COMPANIES

FINANCIAL SERVICES

Quantrax Corporation

$390K total gain in Year 1

› ~3,300 hrs freed per year (~2 FTEs)
› $70K/year Operational Dividend
› $290K/year Profit Uplift
› $390K Total Financial Gain

"The LyRise team helped Quantrax create outstanding scoring models in a complex debt-collection industry. I would recommend them if you want to buil..."

Ranjan Dharmaraja, Founder & CEO

LEGAL & PROFESSIONAL SERVICES

NY Law Firm

$450K total gain in Year 1

› ~10,000 hrs freed per year (~6 FTEs)
› $300K/year Operational Dividend
› $225K/year Profit Uplift
› $450K Total Financial Gain

"LyRise helped us reclaim thousands of attorney hours and redirect them to higher-value client work."

Managing Partner, NY Law Firm

ABOUT LYRISE AI

LyRise AI is a specialist AI automation consultancy that helps growth-stage and enterprise businesses identify and eliminate operational drag through intelligent agents and workflow automation. We have delivered measurable ROI for clients in financial services, legal, technology, and professional services across the GCC and globally.

STRATEGY	BUILD	SCALE
ROI discovery, process mapping, automation roadmaps	Custom AI agents, integrations, and workflow deployments	Ongoing optimisation, monitoring, and capability expansion

EXECUTIVE SUMMARY

> LyRise is optimizing its operations to develop efficient, scalable AI frameworks while ensuring compliance with legal standards, maximizing client satisfaction, and enhancing business profitability.

WORKFLOWS IDENTIFIED

- > AI Framework Implementation
- > Client Consultation
- > Legal & Compliance Advisory

ANNUAL FINANCIAL IMPACT (PER YEAR)

Hours Returned / Year	**1,598**
Operational Dividend	**$60,000**
Profit Uplift	**$90,000**
Total Financial Gain	**$150,000**
FTE Equivalent	**0.8**

DISCLAIMER

This report is prepared by LyRise AI and is intended solely for the use of the named recipient. All financial projections are estimates based on industry benchmarks, publicly available company data, and information provided by the recipient. Actual results will vary. This report does not constitute formal business, financial, or legal advice. No business decisions should be made solely on the basis of this document. LyRise AI accepts no liability for decisions taken in reliance on this report without independent verification.

COMPANY SNAPSHOT

COMPANY DETAIL	SOURCE
50 employees	Scraped — LinkedIn
Revenue estimated $3M annually	Benchmarked
LyRise provides AI solutions to enhance business profits while minimizing legal risks.	Scraped
The company focuses on developing scalable AI frameworks tailored to client needs.	Scraped
Located in Oakland, California, LyRise serves a diverse clientele.	Scraped
Employs a team of 11-50 individuals driven to optimize AI frameworks.	Benchmarked
Estimated yearly revenue between $1M - $5M, with a focus on strategic AI solutions.	Scraped

PROPOSED AI WORKFLOWS

The 3 workflows we'd automate — current baseline cost, post-AI hours, value recaptured per month, and the agent we would deploy. Target outcomes and rationale appear under each workflow's row.

WORKFLOW	VOL/MO	BEFORE AI (HRS)	AFTER AI (HRS)	HRS SAVED/MO	RATE	MONTHLY COST	VALUE RECAPTURED/MO	AI AGENT
AI Framework Implementation Scraped Engineering Team	40	4.00	3.00	78	$32/hr	$5,120	**$2,496**	**John Doe**
Target outcome: Increased client satisfaction and repeat business. · **Why it fits:** This is the core service offering and directly impacts revenue generation.								
Client Consultation Scraped Consulting Team	30	2.00	1.50	29	$46/hr	$2,760	**$1,337**	**Jane Smith**
Target outcome: Enhanced client loyalty and increased consultancy revenue. · **Why it fits:** Strengthens client relationships, increases perceived value, and drives business growth.								
Legal & Compliance Advisory Scraped Compliance and Legal Team	25	3.00	2.50	24	$45/hr	$3,375	**$1,081**	**Emily Johnson**
Target outcome: Legal risk mitigation and enhanced client trust. · **Why it fits:** Protects the company and clients from legal risks.								
Totals — across 3 workflows				**131 hrs**		**$11,255**	**$4,914/mo**	

HOW THIS IS CALCULATED

Formula: Value recaptured/mo = Volume × (Before AI hrs − After AI hrs) × Rate ($/hr)

Worked example — AI Framework Implementation: `40 × 1.00 hrs × $32/hr = $2,496/mo`

Monthly total: `$2,496 + $1,337 + $1,081 = $4,914/mo`

Annual hours returned: `131 × 12 = 1,572 hrs (~0.8 FTEs at 2,080 hrs/yr)`

Annual Operational Dividend: `$4,914/mo × 12 = $60,000`

PROFIT UPLIFT ANALYSIS

Downstream revenue and margin gains from redirecting recaptured capacity. All arithmetic is shown for transparency.

LEVER	DERIVED FROM	BASELINE	AI AGENT ACTION	RATIONALE & ARITHMETIC
Optimize AI Framework Implementation	AI Framework Implementation	AI projects currently handled by engineering team.	Streamlining AI framework development will free up significant engineering hours.	`78 hrs/mo freed × $42/hr × 0.35 redirected = $1,140/mo`
Enhance Client Consultation Efficiency	Client Consultation	30 consultation sessions per month currently engage significant consulting hours.	Enhanced efficiency and streamlined processes will free hours for strategic engagement.	`29 hrs/mo freed × $45/hr × 0.35 redirected = $457/mo`
Improve Compliance Workflow	Legal & Compliance Advisory	Legal advisory currently occupies significant hours.	Streamlining compliance checks enhances productivity and reduces hours needed.	`24 hrs/mo freed × $46/hr × 0.35 redirected = $387/mo`
Annual incremental profit (per year)				**$90,000**

UNDERSTANDING THESE NUMBERS

OPERATIONAL DIVIDEND

$60,000

Direct labor value recaptured from freed hours — measurable on day one of full adoption

PROFIT UPLIFT

$90,000

Downstream revenue and margin gains from redirecting recaptured capacity to higher-value activities

TOTAL FINANCIAL CASE — 3-YEAR PROJECTION (CUMULATIVE TOTALS)

HORIZON	HOURS RETURNED (CUMULATIVE)	OPERATIONAL DIVIDEND (CUMULATIVE)	PROFIT UPLIFT (CUMULATIVE)	TOTAL FINANCIAL GAIN (CUMULATIVE)
Year 1 total	1,598 hrs (~0.8 FTEs)	$60,000	$90,000	**$150,000**
Through Year 2 total	3,436 hrs	$129,000	$193,500	**$322,500**
Through Year 3 total	5,433 hrs	$204,000	$306,000	**$510,000**

> *Cumulative totals — each row shows the running total from launch through the end of that year. Year 2–3 figures apply a growth factor of 2.15× and 3.40× respectively to reflect ramp-up and process maturity.*

COST OF DELAY

$12,500 / month

With the continuous advances in AI and evolving legal standards, delays in adopting optimized AI frameworks and compliance procedures can hinder growth and expose substantial legal risks. Delay is not neutral — it carries a monthly price.

RESILIENCE POSITIONING

The gap between automated and manual operations compounds over time — the following dimensions illustrate what acting now protects against.

DIMENSION	ACT NOW	DEFER DECISION
Cost per unit	**Act Now:** Reduced operational costs through efficiency gains.	**Defer:** Risk of increased expenses due to inefficiencies.
Delivery speed	**Act Now:** Faster turnaround times and greater competitiveness.	**Defer:** Stagnation in speed impacting market responsiveness.
Error rate	**Act Now:** Lower error rate with optimized AI operations.	**Defer:** Increased errors in legal and operational areas.
Strategic capacity	**Act Now:** Greater capacity to focus on high-value projects.	**Defer:** Restricted ability to engage in strategic initiatives.

RECOMMENDED STARTING POINT

Of the workflows on page 3, the one we'd recommend leading with — and why it makes the strongest pilot.

> Considering its strategic focus and team size, a pilot to streamline AI framework processes and enhance consultation services will directly impact business profitability and compliance adherence.

DATA PROVENANCE

Every modeling assumption is traceable to a source. Review this table before the validation session.

INPUT	DETAIL	SOURCE	STATUS
Annual revenue anchor	$3M estimated	Benchmarked	Needs validation
Headcount	50 employees	Scraped — LinkedIn / Apollo	**Validated**
AI Framework Implementation — blended rate	$32/hr (mid)	Scraped — Glassdoor	**Validated**
AI Framework Implementation — monthly volume	40/mo estimated	Scraped	Needs validation
Client Consultation — blended rate	$46.09/hr (mid)	Scraped — Glassdoor	**Validated**
Client Consultation — monthly volume	30/mo estimated	Scraped	Needs validation
Legal & Compliance Advisory — blended rate	$45.04/hr (mid)	Scraped — Glassdoor	**Validated**
Legal & Compliance Advisory — monthly volume	25/mo estimated	Scraped	Needs validation
Automation time reduction %	25% — AI Framework Implementation; 25% — Client Consultation; 17% — Legal & Compliance Advisory	Benchmarked — LyRise + McKinsey 2023	Industry standard
Profit lever — Optimize AI Framework Implementation	AI projects currently handled by engineering team.	Benchmarked	Needs validation
Profit lever — Enhance Client Consultation Efficiency	30 consultation sessions per month currently engage significant consulting hours.	Benchmarked	Needs validation
Profit lever — Improve Compliance Workflow	Legal advisory currently occupies significant hours.	Benchmarked	Needs validation

RISKS & MITIGATIONS

RISK	DETAIL	MITIGATION
Adoption Resistance	The team may resist new AI process changes due to comfort with existing workflows.	Provide comprehensive training and highlight efficiency benefits early.
Compliance Missteps	Quick changes in processes may inadvertently lead to compliance oversights.	Incorporate thorough review stages in implementation phases.
Client Perception Misalignment	Changes in service delivery may alter client perceptions.	Communicate changes clearly and align with client expectations early.

IMPLEMENTATION ROADMAP

TIMELINE	PHASE	KEY ACTIVITIES
Weeks 1–2	**Rapid Discovery & Validation**	Validate workflow volumes and task times for AI Framework Implementation; confirm data access and integration scope; agree pilot selection.
Weeks 3–6	**Pilot Build & Testing**	Deploy AI agent for AI Framework Implementation; QA and calibration cycles; weekly accuracy reports; human review gates active throughout.
Weeks 7–8	**Controlled Go-Live**	Full pilot rollout on approved workflows; performance instrumentation live; weekly dashboard; anomaly escalation active.
Weeks 9–10	**ROI Validation & Expansion**	Measure actual hours returned vs. modelled; calculate realised Operational Dividend; present Phase 2 roadmap.

NEXT STEPS

Process validation session

If maximizing AI efficiency and minimizing legal risks are priorities for your organization, a 30-minute call with elena@lyrise.ai would be worthwhile to explore these strategic opportunities.
