I would recommend them if you want to buil..."</i> Ranjan Dharmaraja, Founder & CEO	NY Law Firm \$450K total gain in Year 1 › ~10,000 hrs freed per year (~6 FTEs) › \$300K/year Operational Dividend › \$225K/year Profit Uplift › \$450K Total Financial Gain <i>"LyRise helped us reclaim thousands of attorney hours and redirect them to higher-value client work."</i> Managing Partner, NY Law Firm

LyRise is a 50-person technology / saas firm. Across its workflows — ai framework implementation, client consultation, legal & compliance advisory — the same structural drain recurs: qualified professionals spending significant time on high-volume, rules-based process that does not require their judgment. This report estimates \$150K in Total Financial Gain available through targeted AI deployment — without adding headcount.

THE PATTERN UNDERNEATH

LyRise is optimizing its operations to develop efficient, scalable AI frameworks while ensuring compliance with legal standards, maximizing client satisfaction, and enhancing business profitability.

WHERE THE OPERATIONAL DIVIDEND COMES FROM

What is Operational Dividend? The dollar value of hours recaptured each month when AI takes over high-volume, rules-based work currently consuming your team. The table below contrasts hours spent today vs. after AI, then prices the freed time at fully-loaded labor rates. Total Operational Dividend: **\$60K / yr**

Workflow	Hrs/mo Now	Hrs/mo After AI	Hrs Saved/mo	Value/mo	AI Agent Deployed
AI Framework Implementation	160	82	78	\$2,496	John Doe
Client Consultation	60	31	29	\$1,337	Jane Smith
Legal & Compliance Advisory	75	51	24	\$1,081	Emily Johnson
TOTALS	295	162	133	\$4,914	1,598 hrs/yr · 0.8 FTE equiv.
Total Operational Dividend (per year)				\$60,000 / yr · value of hours recaptured	

WHERE THE PROFIT UPLIFT COMES FROM

What is Profit Uplift? Operational Dividend = the value of hours freed from manual work. Profit Uplift = what those freed hours produce when redirected to higher-value activity. These are sequential effects of the same improvement — not the same hours counted twice. Total Profit Uplift: **\$90K / yr**

Workflow	Uplift Lever	How It Works — Full Logic
AI Framework Implementation	Optimize AI Framework Implementation	78 hrs/mo freed × \$42/hr × 0.35 redirected = \$1,140/mo
Client Consultation	Enhance Client Consultation Efficiency	29 hrs/mo freed × \$45/hr × 0.35 redirected = \$457/mo
Legal & Compliance Advisory	Improve Compliance Workflow	24 hrs/mo freed × \$46/hr × 0.35 redirected = \$387/mo
Total Profit Uplift: \$90,000/yr		Total Financial Gain: \$150,000/yr · All levers require validation in Phase 1.

COST OF DELAY

\$12,500 / month

With the continuous advances in AI and evolving legal standards, delays in adopting optimized AI frameworks and compliance procedures can hinder growth and expose substantial legal risks. Delay is not neutral — it carries a monthly price.

WHAT HAPPENS NEXT

Process validation session

If maximizing AI efficiency and minimizing legal risks are priorities for your organization, a 30-minute call with elena@lyrise.ai would be worthwhile to explore these strategic opportunities.
